Why should this be treated as a general question now? Not only is there a vacancy of a Prof. Mineralogist for the Geological dept. but there are two Prof. Geologists places that fell up. It seems to me that these three appointments may be grouped together & selection of suitable candidates left to a Committee consisting of the Six officers proposed. The probabilities are that either such a personnel for the Committee. The best selection in the interests of the department will be m.....

Inspector of Mines — L.A. Beckwith
600 - 40 - 800 + 100 LA
Asst Inspectors of Mines — C.E. Suryanarayana Rao
300 - 25/1 - 450 + 75 LA
Senior Inspector of Mines (Vacant)
125 - 25/2 - 250 + 50 LA

Explosives Branch.

Inspector of Explosives. — Mr. A.F. Fetherston.
400 - 30 - 700
Asst Inspector of Explosives. (Vacant)
125 - 25/2 - 250.

NOTE—Contn. sheet.

G. R. S. III-2]

General and Revenue Secretariat. | File No. 60 of 1919-20.

Serial No.

24 From the above it is clear that there are at present two permanent vacancies in the Mines & Explosives Dept viz the posts of Junior Inspectr of Mines & Asst Inspr of Explosives and three permanent vacancies in the Geological dept viz one Asst Geologist and two probationers. The post of Senior Geologist will become a permanent vacancy after 30-6-20 owing to the appointment of Mr. Sampat Iyengar as a professor in Central College & the post of Deputy Directr is almost a permanent vacancy as Mr. Jayaram is not likely to revert to that post and as Mr Sampat Iyengar is appointed as a professor. Thus there are altogether seven vacancies as pointed out in paragraph 17 above.

Asst. Secy. 10-3-20. 25 Chief Secy) 10/3/20

26 Again:- three vacancies Mr V. G Dani has been proposed to be appointed as Substv Geologist on probation.

27 For the other places graduates in Chemistry or Geology are proposed to be taken on as probationers and trained in field work &c

(1st member) 28/4 15/3/20

28 The chairman the above

16/17/3/20

NOTE—Contn. sheet.

Serial No.

that the vacancies are not the ranks that can be filled up easily by promotion by direct selection but are vacancies in technical posts for which candidates have to be specially trained. There will be a number of vacancies in different technical posts which are to be filled up by appointment from outside. If one district is granted there will be one vacancy for such appointment. I do not think that instead of the higher vacancies any person will be sent to specially train. [illegible]

29 Forwarded, with compliments, to the Director, Department of Mines & Geology, on Special Duty, for favour of remarks.

30 The whole question of the staff of the Geological Department is rather involved. There are many acting arrangements and several vacancies and this state of affairs will be accentuated by the transfer of Mr. Sampat Iyengar to the College in June and the transfer of Mr. Venkatramayya to the Iron Scheme. In order to clear the air I have prepared the attached list showing (1) The sanctioned staff of Geological Officers and of the Mining and Explosives Department (2) the present permanent incumbents (disregarding acting arrangements) and (3) the arrangements I propose for the immediate future.

With regard to these arrangements I offer the following remarks:--

31 DIRECTOR. As I have now been designated Director of Mines and Geology - which may be regarded as a specia temporary appointment - I do not see why Mr. Jayaram should not be designated Director, Geological Department, and the words sub-pro-tem omitted. The post is vacant and Mr. Jayaram may be confirmed therein.

32 DEPUTY DIRECTOR. Mr. Sampat Iyengar goes to the College in June and there is no one whom I can confidently recommend to fill his place. I am not prepared at present to recommend Mr. Sen for this post and any future recommendation will depend on the energy and progress which he may display.

(a) I propose therefore that the post of Deputy Director

Serial No.

Director be left vacant until we see whether any of our own officers show signs of qualifying for it.

(2) I do not propose the entertainment of an outside European Officer for two reasons

(1) because such appointment would block promotion for one of our own men who may turn out fit to take the post and

(2) because there is little chance of obtaining a suitably qualified European officer. The pay is not sufficiently attractive and the Geological Survey of India - which offers much higher rates of pay than we do - is present unable to secure men to fill up vacancies in its staff.

33 SENIOR GEOLOGIST. Mr. Sen to be confirmed in this post. This will give him a promotion and afford him an opportunity to show what he is made of.

34 ASSISTANT GEOLOGISTS. Consequent on the above arrangement the two Assistant Geologists posts will be vacant and can be given to Messrs. Balaji Rao & Venkatramayya, whom I have all along recommended for this grade. Mr. Venkatramayya will be transferred to the Iron Scheme and seconded in the Department and his place may be taken by Mr. Rama Rao as Officiating Assistant. Mr. Rama Rao is the most promising of the junior officers and should be given

NOTE—Contn. sheet.

Serial No.

given this chance.

35 SUB-ASSISTANTS & PROBATIONERS. (a) Mr. Dani has now been appointed on probation for 2 years.

(b) Messrs. Venu-Gopal and Kailasam will continue making 3 out of the 5 sanctioned. There are two posts vacant for which men are required and two probationers may be selected with a view to filling these gaps as well as 2 probationers provided for in the sanctioned scale to meet future requirements.

(c) Four probationers therefore have to be selected all of whom will be in the running for the vacant posts or others which may become vacant later on.

36 This is the main point dealt with in the notes sent to me and I hope I have made it clear that we require 4 probationers for the Geological staff to be put under training for present and prospective vacancies.

---

37 MINES AND EXPLOSIVES. The requirements are very clear and simple.

We want 1 probationer to train for the vacant post of Junior Inspector of Mines and 1 probationer to train for the vacant post of Assistant Inspector of Explosives.

Serial No.

38 This means 2 more probationers making a total of 6 to be selected and taken on if we can f i n d suitable men.

39 In connection with these proposals I beg to call attention to my note on the Reorganization of the Department dated 10th October 1919. This was forwarded to the Chief Secretary by the Director, Geological Department, with his No.1061 dated 18-10-19 and contains certain proposals not y e t disposed of regarding the pay of officers. I asked for a reconsideration of the pay given to the Heads of the Departments of Geology and Mines and urged that it should be increased to Rs.1200-50-1400 as was originally agreed upon and trust this will now be favourably considered. A pay of Rs.1000--1200 is not in my opinion, a suitable remuneration for the Head of either of these Departments and will not permit of the Officer maintaining his proper status. Further, it automatically reduces his halting allowances from Rs.7/8 to Rs.5/- a sum which at the present time is very inadequate. The increments will not increase the budget allotment owing to the Deputy Director's post being left vacant and by the time that comes to be filled, I shall have retired.

40 The other request I made was for some consideration to be shown to the Office Assistant to the Director. His work is undoubtedly arduous and responsible

Serial No.

responsible and a great deal of responsible work must be entrusted to him if the Director is to have any time free for Technical work. I have asked that he should be given the maximum pay of the post sanctioned (viz Rs.200/-) but I think it only fair to say that I do not consider that the sanctioned post gives him either encouragement or sufficient remuneration and it leaves him entirely without prospects after 23 years of service. May I request Government to reconsider this matter and make the post Rs.200 to 300 which, certainly, is more than justified by the heavy and responsible work.

41 I trust that all these matters will be disposed of once for all, together with the reorganization of the Clerical and Menial staff. The Geological Department has been under reorganization practically since 1914 and during all this time we have not had a satisfactory organization, staff or equipment and progress has been correspondingly unsatisfactory.

42 Forwarded with Compliments to The Chief Secretary — H. H. Haig 29.3.20

NO. 3824/16 Dt. 30.3.20.

General and Revenue Secretariat. | Geol File No. 60 of 1919-20

Serial No.

Extract from Geol file no 69-18

45 At against the five Sen Assistant Geologists the appointments should go as follows:-

1 M. T. P. Kailasam.

2. M. V. T. Venugopa

3. Mr. V. G. Dani on probation for 2 years

There will then be two vacancies in the Sub Assistant Geologists grade and the sanctioned scale. Applications should be invited in accordance with the draft orders already approved, from candidates for appointments as Geological Probationers and who may be elected to fill in these vacancies.

46 There are two places of probationers sanctioned in the cadre & the question is whether these also should be filled up now. As the dept is short handed, I think these should also be filled up so that there may be a sufficient number of men available for future work and the probationers may at once be drafted so that they can get the required training.

47 In the dept of Mines, it is necessary to appoint forthwith two Probationers. The Junior Inspectors place still remains vacant and the Assistant Inspectors of Explosives has not yet been appointed. So altogether 6 probationers

NOTE—Contn. sheet.

NOTE—Contn. sheet.

Submitted to His Highness.

When the question of selecting a suitable candidate in place of a Geological Probationer, whose services were dispensed with in January last came up for consideration, it was thought desirable both by Mr. P. Raghavendra Rao and myself that this opportunity should be taken to select an adequate number of Probationers for the Departments of Geology and of Mines so as to meet the requirements of both the Departments for some years to come. Thereupon, Dr. Smeeth was consulted in the matter and he sent in a note dealing with the actual requirements of these two departments, which is contained in paragraphs 30 to 41 in the file The question received careful consideration at my hands in connection with the re-organization of the Departments of Geology and Mines and the following minute was recorded by me on 2nd April 1920:-

"As against the five Sub Assistant Geologists, the appointments should go as follows:-

1. Mr. T.P. Kailasam,
2. Mr. V.T. Venugopal,
3. Mr. V.G. Dani on probation for two years.

"There will, thus, be two vacancies in the Sub Assistan Geologists' grade under the sanctioned scale. Applications should be invited in accordance with draft order already approved, from candidates for appointments as Geological Probationers and two may be selected to fill in these vacancies.

"There are two places of Probationers sanctioned in the cadre and the question is whether these also shoul be filled up now. As the Department is short-handed

I think these should also be filled up so that there may be a sufficient number of men available for future work and the Probationers may at once be drafted so that they can get the requisite training.

"In the Department of Mines, it is necessary to appoint forthwith two Probationers. The Junior Inspector's place still remains vacant and the Assistant Inspector of Explosives has not yet been appointed. So, altogether six Probationers will have to be found to complete the organization of these two Departments."

2. With a view to have prompt action taken on the lines indicated above, a Committee consisting of the marginally noted officers was appointed in Government order dated 14th April 1920 to select three candidates for appointment as Probationers in the Geological Department and two for appointment as Probationers in the Department of Mines and Explosives.

1. Director of Mines and Geology.
2. Director, Department of Geology (Convenor).
3. Chief Inspector of Mines in Mysore.
4. Principal, Central College.
5. Professor of Chemistry, Central College.
6. Professor of Geology, Central College.

Linked file

3. The Committee received twelve applications (11 from Brahmins and one from an Indian Christian) for Probationership in the Department of Geology and 11 applications (all from Brahmins) for Probationership in the Department of Mines and Explosives. They consulted the Heads of Departments concerned in regard to the qualifications of the candidates to be selected and also interviewed such of the applicants as were present, and after a careful examination of the merits and qualifications of the several applicants, made the following recommendations to Government.

(a) Messrs. J.P.David, B.Sc.; L.S.Krishna Murthi, B.Sc and L. Rama Rao, B.A.; to be appointed as Probationers in the Department of Geology in the order named.

(b) Messrs. M.K. Sivasankara Rao, B.A. and A.N. Anantharamaiya, B.Sc., to be also appointed as Probationers in the Department of Geology in the order given, in the event of further necessity or vacancies requiring the selection of additional Probationers.

(c) Mr. K. Doraswami, B.A., to be appointed as Probationer in the Mining Section of the Department of Mines and Explosives.

(d) Mr. V. Narayana Rao, B.A., to be appointed as Probationer in the Explosives Section of the same Department.

4. While submitting the above recommendations of the Committee for the orders of Government, the Director of Geology urged:-

(1) that all the five candidates selected by the Committee may be appointed as Probationers, as there is need for all of them and even for one more;

(2) that the Committee's recommendation in regard to the candidates selected for the Department of Mines and Explosives may also be approved; and

(3) that Mr. L. Rama Rao, one of the candidates selected for a Geology Probationership may be appointed straight off as a Sub Assistant Geologist instead of as a Probationer, as he is a Demonstrator in Geology in the Central College for the past two years and has been spoken of very highly by the Principal.

Pages 18 & 19 of Office Notes

5. When the file came up before me, I expressed concurrence with the opinion of the Chief Secretary, viz.,

(1) that the recommendation of the Committee in regard to the selection of three Probationers for the Geological Department and two for the Department of Mines and Explosives maybe accepted;

(2) that two more Probationers for the Geological Department may be selected next year; and

(3) that instead of appointing Mr. L. Rama Rao straight off as a Sub Assistant Geologist, he may be given a personal allowance during his probation to compensate him for the loss of higher emoluments as Demonstrator in the Central College.

Pages 19 & 20 of Office Note

6. With the approval of the Dewan, the file was next circulated to the other Members of Council. The Second Member, while generally agreeing to my proposals, expressed the view that in view of the resignation of Mr. T.P.Kailasam, Sub Assistant Geologist, one more Geological Probationer will have to be appointed and that Mr. L. Rama Rao, Demonstrator in Geology in the Central College might be appointed as a Sub Assistant Geologist instead of as a mere Probationer; while the Third Member of Council fully agreed to my proposals.

Page 20 of -do-

7. As already explained in my minute referred to in paragraph 1 above, I originally recommended two Probationers being selected for the Department of Geology and two for the Department of Mines and Explosives. Subsequently, Mr. V.G. Dani, Sub Assistant Geologist, and more recently Mr. T.P. Kailasam, also Sub Assistant Geologist, have left the service by resignation. There is therefore necessity now for the selection of four Probationers for the Department of Geology and two for the Department of Mines and Explosives and I solicit His Highness' gracious sanction to the following proposals:-

1. Mr. J.P. David, B.Sc., 2. Mr. L.S. Krishnamurthi, B.Sc., 3. Mr. L. Rama Rao, B.A., 4. Mr. M.K. Sivasankara Rao, B.A.,	To be appointed Probationers in the Department of Geology, Mr. Rama Rao being given a pay of Rs.100 and the others Rs.75 each during the period of probation.
5. Mr. K. Doraswami, B.A.	To be appointed as a Probationer in the Mining Section of the Department of Mines and Explosives on a pay of Rs.75 per mensem.

6. Mr. V. Narain Rao, B.A. To be appointed as a Probationer in the Explosives Section of the Department of Mines and Explosives.

From

B. JAYA RAM, ESQUIRE, F.G.S.,
Director, Mysore Geological Department.

10 -19

To

C.S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of
H.H. the Maharaja of Mysore, Bangalore.

Sir,

With reference to Government Order No.G.23674-8/Geol.60-19-1, dated 14th April 1920, directing the formation of a Committee consisting of the marginally noted officers for selecting three candidates for appointment as Probationers in the Geological Department, and 2 for appointment as Probationers in the Department of Mines and Explosives, I have the honor to state that the Committee so formed convened a meeting on the 18th of June 1920 to consider the applications received from the several candidates and to select suitabl men for recommendation to Government.

1. Director of Mines and Geology.
2. Director, Department of Geology, (Convener)
3. Chief Inspector of Mines in Mysore.
4. Principal, Central College, Bangalore.
5. Professor of Chemistry, Central College, Bangalore.
6. Professor of Geology ---do---

2. Prior to this meeting the lists of applications with full details as to the qualifications of the several candidates had been furnished to each of the members of the Committee. The several applicants were also summoned to appear before the Committee on the said date.

3. A copy of the Proceedings of the Committee is submitted herewith for the information and orders of Government. The recommendations of the Committee are as follows :--

(a) That Messrs. J.P. David, L.S. Krishnamurthi and L. Rama Rao be recommended for appointment as Probationers in the Department of Geology, and

(b) that Mr. C. Doraisawmy be recommended for appointment as Probationer in the Mining Section of the Department of Mines and Explosives, and Mr. V. Narain Rao as Probationer in the Explosives Section of the same Department.

4 The Committee have also recommended two other candidates, viz,- Messrs. M.K. Sivasankara Rao and A.N. Anantaramaiya for appointment as Probationers in the Department of Geology in the event of additional Probationers having to be entertained besides the 3 candidates recommended above.

In this connection, I beg to state that it appears to me to be not only desirable but also convenient to consider and settle once for all the requirements of this Department in regard to the entertainment of Geology Probationers. The present sanctioned scale provides for 5 Sub Assistant Geologists and 2 Probationers, whereas we have at present only 3 Sub Assistant Geologists and no Probationer, Mr. V.G. Dani, who was appointed Sub Assistant Geologist, having resigned the appointment since the date of the Government Order referred to above. The Sub Assistant Geologists we have are (1) Mr. B. Rama Rao, (2) Mr. V.T. Venugopaul and (3) Mr. T.P. Kailasam. The first of these, viz,- Mr. Rama Rao, has been recommended to be appointed as Assistant Geologist in place of Mr.B.N. Venkataramaiya seconded to the Iron Scheme. To fill up Mr. Rama Rao's place as Sub Assistant Geologist, we have to train another Probationer. We have, therefore, need at present for 5 Probationers, and a 6th Probationer may

also

also be required to be trained to take the place of Mr. T.P. Kailasam, Sub Assistant Geologist, about whom the Government have already been addressed. Although the question of the entertainment of a Probationer to be trained for Mr. Kailasam's place may be deferred for the present, it is necessary that we should entertain at once 4 probationers in order to fill up the existing vacancies as detailed above. I beg to recommend, therefore, that the 5 candidates selected by the Committee may kindly be approved and their appointment sanctioned.

6 The Committee's recommendation in regard to the candidates selected for the Department of Mines and Explosives may also be kindly approved

7 With regard to one of the candidates selected for Geology Probationership, viz,- Mr. L.Rama Rao, I beg to state that he is at present a Demonstrator in Geology in the Central College and is drawing a pay of Rs.85/- per mensem, in the grade of Rs.75-10-125. He has been doing teaching work in Geology for the past two years since 1st July 1918 and Mr. E.P. Metcalfe thinks very highly of him and recommends his being placed first in the list of selected candidates. He is not prepared to start as a Probationer, but he is willing to take up the post of Sub Assistant Geologist. In view of his qualifications and service as Demonstrator of Geology in the Central College and also of the immediate necessity for a candidate of such qualifications in the Department, I beg to recommend that he may be appointed as Sub Assistant Geologist in place of Mr. B. Rama Rao, who has been recommended for appointment as Assistant Geologist.

The file of applications received from the severa

candidates

Proceedings of a meeting held at the Geological Office on Friday the 18th June 1920, by the Committee appointed by Government Order No.G.23674-8/Geol.60-19-1, dated 14th April 1920, for selecting candidates for appointment as Probationers in (1) the Department of Geology, and (2) the Department of Mines and Explosives.

Present.

1. Dr. W.F. Smeeth, M.A., D.Sc., &c., Director of Mines and Geology.
2. B. Jayaram, Esq., F.G.S., Director, Department of Geology (Convener).
3. L.H. Beckwith, Esq., A.R.S.M., Offg. Chief Inspector of Mines in Mysore.
4. E.P. Metcalfe, Esq., B.Sc., Principal, Central College, Bangalore.
5. M.G. Srinivasa Rao, Esq., M.A., Professor of Organic Chemistry, Central College, Bangalore.
6. V.S. Sambasiva Iyer, Esq., B.Sc., L.C.E., Professor of Geology, Central College, Bangalore.

Absent.

None.

Besides the applications which were referred to in paragraph 2 of the Government Order mentioned above, and which were received in response to the Notice No.1739, dated 27th January 1920, published by the Director, Department of Geology, two subsequent applications were registered for consideration. This was done in view of the desirability of securing most recent graduates also for selection.

The Chief Inspector of Mines in Mysore forwarded to the Convener all the applications received by him in accordance with para 4 of the aforesaid Government Order.

Two lists, Nos.1 and 2, were prepared by the Convener in respect of the applications for Probationership (1) in the Department of Geology and (2) in the Department of Mines and Explosives, and a copy of the same was furnished to each of the Members of the Committee. The applicants were also invited to

appea

appear before the Committee on the date of the meeting.

At the meeting all the applications received and the lists brought up-todate were placed by the Convener before the Committee and the Government Order was also read. These lists are appended hereto.

12 applications (11 from Brahmins and 1 from an Indian Christian) have been received for Probationership in the Department of Geology, and 11 applications (all from Brahmins) for Probationership in the Department of Mines and Explosives.

The Committee consulted the Heads of the Departments concerned in regard to the qualifications of the candidates to be selected, so that they might be best suited for the work for which they are to be employed. The Committee also interviewed such of the applicants as were present and after careful examination of the merits and qualifications of the several applicants it was unanimously resolved as follows :--

(1) That Messrs. 1. J.P. David, B.Sc.,
2. L.S. Krishnamurthy, B.Sc.,
3. L.Rama Rao, B.A.,

be recommended for appointment as Probationers in the Department of Geology, in the order of their names mentioned above and that in the event of further necessity or vacancies requiring the selection of additional Probationers, the undermentioned candidates be also recommended, viz,-

1. Mr.M.K. Sivasankar Rao, B.A.,
2. Mr.A.N. Anantaramaiya, B.Sc.,
(No.8 in List 2).

in the order in which their names are herein entered.

The order in which names are placed denotes merely the order in which, in the opinion of the Committee, the Probationers should be selected for vacancies. Any question of relative rank should be deferred during the period of probation.

(2) That (a) Mr. C. Doraiswami, B.A., be recommended for appointment as Probationer in the Mining Section of the Department of Mines and Explosives, and (b) Mr. V. Narayana Rao, B.A., for appointment as Probationer in the Explosives Section of the same Department.

The selection of Mr. C. Doraiswami had the full concurrence of Mr. Beckwith, Offg. Chief Inspector of Mines in Mysore.

In the selection of a Probationer for the Explosives Section, Mr. A.T. Setlur, L.C.E., Inspector of Explosives, was afforded an opportunity of looking through the list of applications and he has also expressed his satisfaction with the Committee's selection of Mr. Narayana Rao.

ed to have the qualifications which Dr. Smeeth suggested as desirable.
